**ZEUS+ΔIONE**

HELLAS

THE DECONSTRUCTION OF THE TEMPLE

SPRING SUMMER COLLECTION 2014

Myth and reality

A construction created exclusively for a celestial purpose

Doric rhythm, a geometrical perfection

Intelligence portrayed on the perplexity of the interior

Time and earth

Fluidity and solidity

A constant dialogue between oppositions and transitions

The temple survives in time

Its form and space remain

The body of knowledge that surrounds it is enriched with new interpretations

One layer over the other like a palimpsest

The meaning is now engraved into the stone - the marble

Fragmentation of architectural elements

New formations, now deconstructed; a new perception of geometry

Attractive and beautifully meaningful

**The collection consists of silk and cotton hand weaved clothes,  
using traditional looms and secrets of long-hold technicians.**

**Handcrafted leather sandals and precious jewelry are complementing it.**

**Tradition, geometrical design and a color pallet that represents  
the elements of nature evoke the timeless simplicity of the brand.**

Temple: The earth home to the Gods
